I am an ambitious, committed and enthusiastic graduate student in BSc (hons) in Computing at the University of Central Lancashire, looking for a position within the computing industry. I have the drive, motivation and commitment to further develop my skills set.

Work Experience

2018 – Present: Capita (Akinika)

My time at Akinika has further developed my problem handling skills as well as my communication skills telephonically since we are dealing with customers over the phone. Akinika has also improved my management skills since I must help and assist my colleague if they are slightly unsure of something. It has also taught me and gave me the confidence to make big decisions when under huge pressure.

2014: Barclays Bank

During my time at Barclays Bank I gained communication and relationship skills. I have also seen my confidence grow and most importantly learnt the importance of time management.

2017: Harris Library

During my time at Harris Library I gained vital customer service skills and I have also seen my organisation skills grow greatly. It has also increased my ability to follow instructions effectively and efficiently.

2015 – 2018: Preston Muslim Society

This voluntary experience has further enhanced my administrative skills. It has also taught me the importance of completing designated responsibilities. And also enhanced my communication skills greatly.

Education

2010 - 2015: Penwortham Priory Academy:

7 GCSE's (A-C) Including Maths, English and Science

2015 - 2017: Cardinal Newman College:

BTEC ICT Extended Diploma – 3 Distinction Stars

2017 – Current: University of Central Lancashire (BSc (Hons) Computing)

Grade – 2:2

Skills

- Ability to use HTML, CSS and basics of PHP.
- IT: possessing a good knowledge of Microsoft word, excel and also access (databases) enables me to confidently use either of these programs to create simple as well as complicated spreadsheet and databases.
- Develop effective test strategies.
- Communicating skills: I am able to professionally communicate with people on a day to day basis telephonically or in person. On the other hand, I am also able to communicate well with my colleagues/peers in a written and also verbal form.
- Outstanding time management skills.
- Excellent ability to be flexible and adaptable to meet the needs of my peers and the business.
- Can work independently as well as part of a team.
- Ability to work under pressure, and I am confident in making decisions to resolve situations.
- Willing to undertake additional training as required to meet the needs of an organisation.
- Ability to establish positive relationships with peers and colleagues.
- Have an eye for detail.
- I am able to motivate myself and don't need to be told what to do constantly.

Hobbies and Interest

I am an approachable person who is honest and straight forward. Always willing to lend a helping hand and who never shies away from asking for assistance. Since studying computing at university my interest have included the development of artificial intelligence and how it can help society and also the development of new technologies, as well as creating tests to ensure software's are working to its full potential..
